Math 101 Project 2

Group Portion

1. You will be assigned to a group of 4 students. Be sure to get first and LAST names and phone numbers from every person in your group.

2. Make sure you put your name with your group on the sign-up sheet, and include your phone number.

3. You should complete the three assigned problems as a group.

Individual Portion

1. Write a report individually (no copying), showing your computational steps.

2. Show all steps to get full credit.

Grading of Group Portion (10 points)

1. Do your final answers (not your computational steps) match those of your group members? (6 points)

2. Does your report include FULL names of all group members, and clearly distinguish which name is yours? (2 points)

3. Does your report include your group letter? (2 points)

Grading of Individual Portion (10 points)

1. Is your report stapled in the upper-left corner if you have more than one sheet of paper to submit? (2 points)

2. Does your report have your recitation section? (2 points)

3. Are your solutions correct and complete? (6 points)
